Solstice User Instructions

Solstice

The Huddle Spaces in the BAS University Computer Lab are equipped with Solstice. Solstice is an application that facilitates wireless visual collaboration from any number of users, any type of content, and on any device. Solstice allows multiple uses to connect simultaneously to a shared display using any device over a wireless network.

Step 1 Open a browser in your device, then enter the IP address (1) shown on the JONES COLLEGE OF BUSINESS shared screen in the room. MIDDLE TENNESSEE STATE UNIVERSITY solstice Instructions WEE Connect by App Connect by Web CONNECT BY WEB: HAVE THE APP? Launch the app and select LAB-HSA In your browser, visit http://10.80.36.116 // 3MDV 📑 4:13 PM Step 2 E Network Re ← → C 🗋 10.80.45.255 The next step is to download and install the client application. Click on Connect (2). This will download the client application to your device. 2 Instructions Connect! Connect by Web by App Step 3 Run the downloaded installation file 3 (3) and install the client application on the device you are using.
