

*A group of Lori Kissinger's COMM 2200 EXL students worked with various young people with disabilities at MTSU in February. Under the direction of Lauren Rudd, in Human Sciences, the young students were assisted in making tea caddies. The tea caddies are part of the Teapot Diplomats program of VSA TN. This collaboration across disciplines allowed students to work together to benefit VSA Tennessee, which provides opportunities for young people with disabilities to participate in and express themselves through the arts and arts education.*
