

A Bill to require an email to be posted on student accounts upon the closing of the University due to snow or otherwise.

Whereas: MTSU students depend on their university email accounts to learn of information pertaining to the university

Whereas: The decision to close the University is rarely made in advance

Whereas: Students wishing to find out the status of the University often must wait until arrival on campus

Whereas: Student safety can be jeopardized when traveling dangerous roads

Therefore it be enacted, by the 65th Congress of the Student Government Association of Middle Tennessee State University, that:

Section 1: Upon making the decision to close Middle Tennessee State University, an email is to be sent to every student's campus email account.

Section 2: This bill shall take effect immediately upon approval, the student welfare requiring it.
